Dear Mary, Gary, Paul,

Here is thenaddition to the list of what is in the Texas file as far as I've gone. Paul has only copy first part. I've asked him to pass arouund.

This may be redundant, but I did not know if anyone had, so in skimming for what intereste me immediately (and it is all missing), I made this list. I have found not one of the police docs I have in COUP in the Texas file, which this is supposed to be, complete. I'll try and locate the missing pages at the Archives (as noted in enclosed). There must be many other things of DPD origin also not here.

I have no explanation. If I get one, I'll distribute. If one of you has inventory or list of what is in it, I'd like to have, to get what is missing.

One of the Sheriff's reports I do not recall having seen speaks of a speeding Red Impala, Ga. license 52J1033. Model, 1963. This was by Jack Stevens.

Decker sure conducted some "investigation"!

Best,
